The Director of Central Intelligence

Washington, D.C. 20505

DCI/IC 28-4612

Intelligence Community Staff

12 May 1978

MEMORANDUM FOR: Mr. William G. Miller, Staff Director
Senate Select Committee on Intelligence

ATTENTION: Mr. Daniel A. Childs, Jr.

25X1
FROM:

Deputy to the DCI for Resource Management

SUBJECT: Revised Figures for EP and Supergrade
Requirements

1. Attached herewith are revised data reflecting changes in the EP and Supergrade requirements for the Resource Management Staff and the Collection Tasking Staff. This data replaces the original submission forwarded to you under a covering letter signed by Admiral Turner dated 3 May 1978, and the supplemental justification which I submitted to you on 5 May by memorandum.

2. The effect of this revision is to decrease the grade level for Office Directors with a concomitant downgrading of other appropriate positions. This action reduces the overall EP and Supergrade requirements for both Staffs.

NOTE FOR:
FROM:

At the NFIB meeting yesterday, Foster Collins asked me if we couldn't do something to make sure that Turner's statements to the Congress are distributed to the NFIP program managers. I didn't realize that this was not being done. Can you think for a little bit on what would be required to make sure that they get copies of whatever statements Turner might make to the Congress that would be relevant?

MEMORANDUM OF CONVERSATION
WITH BOB ROSENBERG
May 9, 1978

Bob suggests that we send a paper to Dave Aaron on the subject of sparing discussion of the NFIP and non-NFIP DoD budgets. I won't be able to get on Aaron's calendar unless such a memo is forthcoming.

He thinks it would be a good idea to formally submit a rebuttal or counterview to the President 24 to 48 hours in advance of the OMB Spring Review. The timing is important, because it needs to be submitted close enough to the deadline that extensive staffing around EOB is not possible.

He proposed that the PRC(I) views would carry a lot of weight. I backed him off of that some but said that I would raise the question with Turner. I was skeptical that the organization as a whole would be predictable enough to be really useful.
